

crono In & Out

Crono In & out

Indoor and outdoor training have never been so close!

IN training has never been so OUT.

The innovative Crono InOut hometrainer is equipped with a unique and revolutionary multi-function cycle computer that offers complete versatility. By switching automatically between Indoor or Outdoor settings, you can monitor all your ride statistics no matter how you want to train.

The rider has all the information needed with 25 functions providing everything from wattage to distance, speed and outside temperature. Provides 6 levels of resistance which can be adjusted by simply pressing a button on the cycle computer console.

- 1 Includes 26 function cyclecomputer
- 2 Includes Travel Block support
- 3 Electronically regulated resistance
